We can appreciate and sympathize with our brother editor of the North Branch Gazette in his troubles with the gasoline engine, which last week, after just undergoing extensive repairs, balked and simply wouldn't budge. Fire broke out about four o'clock in the dwelling house just north of Geo. Gough's residence, on Tuesday afternoon. Both companies responded to the whistle and soon water was turned on, and the fire put out as they thought. But in about an hour the alarm sounded and the house was found to be on fire again. This time the flames were thoroughly quenched and not much damage was done. The building is the property of Carl Brown, of Los Angeles, Calif., and was occupied by Wm. Clyne.

Both Mr. and Mrs. Phillips are well known here and everyone unites in wishing them a happy and prosperous life together. Shabbona correspondent to Cass City Chronicle.

The country editor will have to do less travelling in the future. The new rate law does not allow him to exchange advertising for transportation. Legislation certainly has its peculiar features but even the wildest imagination would hardly think that a measure to regulate tariff rates would be so far reaching as to make it illegal for a country editor to exchange advertising space for transportation. We have some great Henry Clay heads in Congress—without the Henry. Possibly some day the country editor will be enjoined from advertising a chicken pie social in exchange for a complimentary ticket.—Sanilac Jeffersonian.

The annual meeting of The St. Clair and Macomb Grange Insurance Company was held in the Opera House in this village Tuesday afternoon, January 8th. Owing to the extreme bad condition of the roads the meeting was not attended as usual, still a fairly large crowd was present. The meeting was for the purpose of electing officers for the ensuing year. A. J. Freeman, of Armada, was re-elected president, and R. O. Gould, of Smith, was re-elected secretary. A board of directors consisting of one member from each grange was elected and this board will meet in the Union Hotel, Port Huron, February 14th. It was voted to hold the next annual meeting in this village, the second Tuesday in January, 1908.—Memphis Bee.

## TRANSPORTATION EXHIBITS.

Norfolk, Va.—The word "transportation" has in late years gained such a wide significance that under this caption volumes might be written. Until recently it referred principally to railroad and steamboat service, but now it reaches from the upper depths of aerial navigation to the bottom of the sea where the submarine boats disport with the denizens of the deep; from the flying locomotive to the trolley car, the automobile or the motorcycle. Or, from the handsomest equipage in carriage or trap to the broad-tread or ox cart of the burden-bearing type.

There was a time when the question of rapid transportation was only discussed in the great centers of civilization or between those centers, but now it is a question of deep interest to everybody, and as the canal and the National pike have given way to the modern steamer, the railway and the automobile, so even the more recent means and modes of transportation will give place to the latest motive power that really constitutes the master-wheel in the mechanism of moving passengers and freight.

The incalculable value of an exhibit at the Jamestown Exposition is becoming more manifest every day as the call for space continues to increase, and more particularly is this true in the motive power department of transportation. When the manufacturer of motive power devices or mechanism begins to realize the vast territory along the Atlantic coast that by reason of the last few years' aerial prosperity, is looking for better means of transportation, both on land, river and sea, he more readily notes the vast importance of properly displaying that for which the people are clamoring and which they will have. The car and the rail must give way to a surer and more rapid mode of propulsion.

That the hundreds and thousands of people who visit the Exposition next year will have an opportunity to compare the various modes of transportation in the past with the perfected modes of the present, is evidenced by the fact that such vast concerns as the American Locomotive Works, the Baldwin Locomotive Works and the Climax as well as other locomotive works and companies interested in the motive power for various modes of transportation as well as vehicles and other adjuncts will have complete exhibits at the Exposition, showing in full means of transportation and of applied motive power, side by side with the most modern vehicles and modes of propelling them. Not only will these extremes separated by three hundred years, be on exhibition but every step taken from then until now will be shown and fully demonstrated.

The masquerade carnival held at the skating rink on Wednesday evening was not a success so far as the number of masqueraders was concerned. The interest of former years in dressing up for prizes was not taken. However, a large crowd was present who did not masquerade. Orin Lane captured the gentlemen's prize and Vina Gohsen the lady's prize. The managers have succeeded in getting the ice in fine shape and hope to see a large crowd present each evening.

"A GOOD PLACE TO TRADE"

## SEVENTH DISTRICT DELEGATES.

The state convention to nominate candidates for justice of the supreme court and regents of the university has been called for February 14 at Grand Rapids. Owing to the very light vote cast last fall the representation of about every county in the state to this convention will be materially cut down.

The basis of representation in Republican state, congressional, and senatorial conventions is one delegate for each 300 of the total vote cast for the Republican candidate for the governor at the last election, and an additional delegate for a fraction of 300 exceeding 150.

So the representation in the seventh district will be as follows:—Huron county, casting 2,610 votes for Warner 9

Lapeer county, casting 2,900 votes for Warner 9

Macomb county, casting 3,894 votes for Warner 13

St. Clair county, casting 5,581 votes for Warner 18

Sanilac county, casting 2,236 votes for Warner 7

Here is a convention of 58 delegates counting two from Wayne, requiring 30 to nominate.

Macomb county is the only county in the district that holds up her representation to where it was in the last campaign. St. Clair and Sanilac are particularly heavy losers.

Now is your chance to buy Ladies Coats at way down prices at the Bon Ton.

Sovereigns Attention—Members are earnestly requested to attend the next regular meeting of Yale Camp No. 60 WOV to be held on Wednesday evening, January 23. Business of great importance to be transacted. Come out.

When the cold winds dry and crack the skin a box of salve can save much discomfort. In buying salve look for the name on the box to avoid any imitations, and be sure you get the original DeWitt's Witch Hazel Salve. Sold by Mathews & Wright.

**Deafness Cannot be Cured.** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
